## TEXAS WEEK AT THE FAIR

Formal Invitation Has Been Extended to City of Palestine to Attend and Participate.

Yesterday Mr. T. R. MacMeichen, personally representing President D. R. Francis of the Louisiana Purchase Exposition and World's Fair, St. Louis, was in the city, and formally extended to Mayor Bowers, as the city's chief representative, an invitation for the city to attend and participate in what has been designated as Texas week at the fair. Texas week will be Sept. 12 to 17, with the 16th especially as Texas day.

There are now three representatives traveling the state, and personally this invitation has been extended to all the important cities of the state.

Mayor Bowers very graciously accepted this invitation for the city, and told Mr. MacMeichen that he would call a meeting of citizens to ascertain if they desired to arrange a formal program for the occasion.

The railroads will run very cheap excursions for this week, and it is expected hundreds of Palestineites will take advantage of the occasion to visit this, the greatest of all world's fairs.

## Order Restricted.

Chicago, Sept. 1.—The strike order of President Donnelly with regard to the independent packers is to apply only to those plants in Chicago and St. Louis.

"Stock handlers," said President Donnelly, "are on strike only in Chicago and St. Louis. In Chicago only the independents within the stockyards enclosure will be necessarily affected. Union men employed in independent packing houses will not be permitted to dress cattle handled on the hoof by non-union men. The fate of outside independent packers depends upon their ability to secure stock without recourse to the stock yards company.

Old machines exchanged. See us at the Singer Store.

## TIDE TURNED IN FAVOR OF JAPS

The Brown Men Seem to Have The Best of the Recent Fighting.

Late dispatches indicate that the tide of battle around Liao Yang has turned appreciably in favor of the Japanese. With a tremendous and sustained assault on the right and center and threatened in rear by a heavy force which crossed the Taitse river, Kuropatkin was forced to fall back from the first line of battle to the fortified position he has established in the town of Liao Yang and its immediate environs.

A St. Petersburg dispatch says this order was given last night, after the Russians had withstood the artillery and infantry attacks from dawn to midnight, but the Japanese pressure was too great to permit its being executed, Kuropatkin fearing that a retrograde movement at that time might result in a rout. A dispatch from Tokio, however, says the Russian right and center is now falling back, pursued by the Japanese.

## CASUALTIES NOT MENTIONED.

Tokio, Sept. 1.—(11:30 a. m.)—Reports received here from Liao Yang do not mention the casualties, which are presumed to be heavy, on account of the heavy forces engaged and the nature of the attack the Japanese are making against the strongly defended positions. The second Russian line is proving stronger than that at Anshan-shan, which they abandoned.

It is estimated that General Kuropatkin has 150,000 fighting men in the field. It is impossible to forecast the duration of the great battle now going on. It may possibly be prolonged for several days.

## WILL RECUPERATE.

Vladivostok, Sept. 1.—The officers and crew of the cruisers Rossia and Gromoboi today bade farewell to Commander Gabitch and Lieut. Diatchkoff, both of the Gromoboi, who were wounded in the recent battle near Tsu Island. The officers will start for Russia tomorrow to recuperate. They will visit Moscow first and afterward go to St. Petersburg. The parting between the officers and their men was an affecting scene.

The large Capital of this bank, its strong Financial Position, and its established reputation for Conservative Banking, are among the substantial advantages offered to present and prospective patrons.

St. Petersburg, Sept. 1.—(10:30 a. m.)—Although General Kuropatkin had the best of the two days' battle at Liao Yang, the suspense is intense over the first issue of the titanic struggle. In view of the number of men and guns engaged, the carnage will doubtless be great on both sides. The best figures now are that a half million men with about 1500 guns are fighting for the mastery.

## FEELING IS INTENSE.

The crisis is expected today. The public is so hungry for news from official sources that the failure to give out advices last night is interpreted ominously in some quarters, but is explainable by the theory that General Kuropatkin is too busy in the midst of a gigantic battle to prepare reports for publication, or that his reports to the emperor contain strategic information which cannot be published.

The meagre advices received make it plain that the Japanese are trying to turn both flanks of Gen. Kuropatkin's position and surround the Russian army at Liao Yang, as Marshal Bazaine was shut up in Metz after the battle of Gravelotte on Aug. 28, 1870, but up to last night, according to unofficial advices, their plan failed and they seemed worsted at all points. Should the Japanese ammunition give out suddenly their position might become desperate.
